

Apparel & Textiles

STR is a leading international provider of testing and inspection quality assurance services to manufacturers, distributors and retailers of softline products.

STR has a worldwide team of highly trained technical support staff with extensive experience in evaluating the quality of all types of garments, fabrics, hosiery and home furnishings.

Our strategic network of laboratories performs testing to international and retailer specific standards.

Our range of testing services includes:

- Physical
- Colourfastness
- Flammability
- Fibre analysis
- Chemical (including analytical and ecological)

STR offers its customers dedicated textile, leather and footwear laboratories in India, UK, Turkey, Switzerland, France, Hong Kong, China, Taiwan and the US.

Key to our success within the field of textiles is our ability to offer a fast and efficient service to customers on a local and global level. Our capabilities coupled with the support that we extend to our customers that go above and beyond the field of testing makes STR the preferred choice for textile quality assurance partner by many leading Companies.

We understand the risks associated with the supply of textile goods and have developed a broad range of services that will minimise these risks and offer you the confidence you need when sourcing textile based products.

The key services are:

- Product testing
- Factory capability and social auditing
- Product inspections
- Consultancy (pre and post development)
- User trials
- Factory accreditations schemes

STR Works For You

Strategically located throughout the world with laboratories and inspection and auditing offices on five continents, we provide testing, audit, inspection, and responsible sourcing services that ensure you the highest level of confidence in the quality, safety and social standards of your products and supply chains.

Raising the world's expectation of product quality, safety and supply chain responsibility
